**Colchester Hospital University NHS Foundation Trust  
Individual Placement Description**

<b>Placement</b>	<b>FY2 General Practice</b>
<b>The department</b>	<p>For the duration of this post you will be placed with an experienced GP educator in a GP practice within the Colchester or Tendring area. The postholder will gain insights into the essential links between primary and secondary care.</p> <p>Following a period of induction the postholder will gain experience in the following – seeing patients in general practice, carrying out home visits, working in a team context including treatment room and chronic disease management. You will also be expected to attend tutorials.</p> <p>This is a Monday to Friday, day duties post. However, the postholder will also have the opportunity to take part in a weekend Medicine / COTE rota for which you will be able to claim extra duty payments. (Please note this is optional and not compulsory).</p>
<b>The type of work to expect and learning opportunities</b>	<p>You will work as part of a General Practice team. You will gain insight into health care delivery in the community. Initially you will sit with different members of the Practice to see how the team functions individually and as a whole.</p> <p>During this placement you will improve your consultation and communication skills and make new diagnoses with the support of the General Practice team.</p> <p>As you gain experience, you will, with support of your trainer, start having your own surgeries with an experienced GP available at all times to ask/check with. You will be debriefed after each surgery and have teaching either alone or with other FY2s or GP ST trainees. You will accompany your trainer on visits and may do some (carefully selected) visits alone. Other than working in A&amp;E this post will offer you the widest spectrum of experience and patients.</p>
<b>Where the placement is based</b>	GP Surgery's based in and around Colchester
<b>Clinical Supervisor(s) for the placement</b>	Dr Wilson Dr Farestrand
<b>Main duties of the placement</b>	The Foundation Year 2 doctor will have the principle responsibility of treating patients under the supervision of senior colleagues in a variety of specialties according to their rotation. The postholder will take part in the appropriate rota for each specialty. In addition the postholder will be expected to attend teaching sessions and will complete a

	logbook of specified competencies and experiences.
<b>Typical working pattern in this placement</b>	Normal working Day - 09.00 till 17.00  (Rota frequency and times may be subject to change)

## Colchester Hospital University NHS Foundation Trust Individual Placement Description

<b>Placement</b>	<b>FY2 Laboratory Medicine</b>
<b>The department</b>	The trainee will be attached to specific departments of the laboratories under consultant, specialist nurse and senior scientist supervision to provide work based experiential learning one to one, in small discussion groups and at the bedside. Learning by discussion with senior biomedical scientists (BMS) and other laboratory staff and independent self-directed learning will also be encouraged. During the attachment a supervised audit project will be completed.
<b>The type of work to expect and learning opportunities</b>	The placement gives foundation doctors the opportunity to learn more about the practice of lab medicine and clinical hematology. The programme is flexible and learner centered and will be tailored to each individuals needs following an initial meeting with the education supervisor Dr Angela Colclough.
<b>Where the placement is based</b>	214 Turner Road (opposite Hospital/PCT Building)
