Employer information	<p>The employer for this post is Whipps Cross University Hospital NHS Trust.</p> <p>The post is based at Whipps Cross Hospital.</p> <p>Whipps Cross University Hospital NHS Trust has been caring for the people of East London for over 100 years. Situated on a 40 acres site on the outskirts of Leytonstone in the London Borough of Waltham Forest, the hospital serves a diverse local population of more than 350,000 people from Waltham Forest, Redbridge, Epping Forest and further afield. The area has a wide variation in levels of deprivation and health needs, ranging from the most deprived five per cent to amongst the most affluent 30 per cent of electoral wards in England. The Trust had a turnover of £244million in 2010/11 and currently employs 3,400 staff.</p> <p>Whipps Cross provides a full range of general inpatient, outpatient and day case services, as well as maternity services and a 24-hour Emergency Department and Urgent Care Centre. The Trust has also built a strong reputation as a centre of excellence for various specialist services, including urology, ENT, audiology, cardiology, colorectal surgery, cancer care and acute stroke care. Many of these services are provided to local people who would otherwise need to travel further to access them. Some of these services are also provided in</p>

	<p>various polyclinics thus bringing care to where the patients resides</p> <p>The Trust is now actively working to merge with Barts and The London NHS Trust and Newham University Hospital NHS Trust. The merger is expected to come into affect from 1 April 2012. This would create one of the largest NHS Trusts in England, and the vision is to create a world-class healthcare organisation that is recognised internationally and helps our local population in north east London to achieve the highest health status possible. At the same time, the Trust is investing in the estate at Whipps Cross to create new and refurbished facilities and to help us provide our patients with the best possible environment in which to be treated and cared for.</p>

<p>The type of work to expect and learning opportunities</p>	<p>All F1 Doctors in paediatrics will generally be ward based (Acorn ward) during the ‘normal’ working day and expected to assist with the daily medical care of all the patients on their ward irrespective of specialty. The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit

	<p>patient care</p> <ul style="list-style-type: none"> • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers.
Where the placement is based	Whipps Cross University Hospital NHS Trust. Acorn Ward (some experience also in paediatric Accident and Emergency and the Neonatal Unit)
Clinical Supervisor(s) for the placement	Are allocated by the College tutor
Main duties of the placement	The F2 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They will have opportunity to work with the consultants in outpatients clinics, and also take responsibility for problems arising in General Paediatrics or neonatal patients on the ward. They are expected to attend the structured teaching programmes provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.
Typical working pattern in this placement	<p><i>The FY2 participate in the full shift rota along with other trainees at ST1-3 level. There are a total of 16 trainees at this level.</i></p> <p><i>They will rotate between general paediatric, neonatal paediatrics and community paediatrics.</i></p> <p>9:00 Meet in NNU Seminar Room (8:30 on Wednesdays). Handover between SHO on-call previous night and SHO on-call that day, Registrar and rest of Paediatric team including Consultant. This is the start of the consultant ward round.</p> <p>SHO on-call the previous night must ensure that notes, X-rays and blood results of patients admitted in the previous 24 hours are ready for the Ward round. This SHO goes off duty at 9:30.</p> <p>The ward SHO will be identified at the beginning of the week, they stay on the ward round and are "in charge" of all ward tasks for the day and week. They are supported by an FY1 working 9-5. There is usually more than one SHO and the extra person will need to help in MDU with bloods and scans as requested by the MDU Sister [Jackie]</p> <p>A+E SHO will see accepted patients as they arrive. All patients must be discussed with registrar before discharge home. It is not permitted for the SHO or SpR to suggest referral to a paediatric clinic without the child having been seen by a member of the paediatric team.</p> <p>E shift SHO is to start in A+E, help ward SHO if not busy. Likewise once the ward is sorted the ward SHO is expected to help in A+E especially from 5pm onwards.</p>

	<p>16.30handover</p> <p>The weekly teaching program consists of:</p> <p><i>Hospital Grand Round 13:00 – 14:00 every Tuesday (in MEC)</i></p> <p><i>Neonatal case presentation Wednesday 09.00-10.00 (NNU seminar room)</i></p> <p><i>Wednesday 13.00-14.00 (NNU seminar room)</i></p> <p><i>Thursday afternoon 13:00 – 15:00 (NNU seminar room unless x-ray meeting: place varies)</i></p> <p><i>Friday 13:00 – 14:00 perinatal meeting (maternity seminar room)</i></p>
