## Whipps Cross University Hospital NHS Trust Individual Placement Description

Placement	FY1 in ITU /Anaesthetics
<p><b>The department</b></p>	<p>The department of Anaesthetics comprises 22 Consultants, 5 non-consultant grades and 21 trainees from the Barts and Royal London rotation. It is the largest department in the hospital.</p>
<p><b>The type of work to expect and learning opportunities</b></p>	<p>The F1 doctor will be based in theatres for 2 months followed by ITU for 2 months or vice versa. They will be supervised at all times to allow effective learning. During the 'theatre' attachment the F1 doctor will be expected to gain an understanding of the role of the anaesthetist and the multiple roles they perform. This will include:</p> <p>Learn to safely assess patients preoperatively with emphasis on the cardiovascular and respiratory systems.            Perioperative management of patients, including assessment and management of the high risk/sick patient.            Intravascular access including peripheral and central access.            Postoperative care including pain management, antiemesis and fluid/blood management            Management of the unconscious patient including maintaining an airway, use of airway adjuncts, supraglottic airway devices and intubation.            The F1 doctor will also gain an understanding of patient monitoring, prescription charts, oxygen therapy, patient safety, infection control, clinical and practical skills.</p> <p>During the ITU attachment the F1 doctor will gain an understanding of the role of the 'Intensivist' and the multiple roles they perform. This will include:</p> <p>Assessment of deteriorating patients on the wards            Initiation of management to prevent further deterioration including oxygen therapy, fluid therapy, antibiotics and non-invasive forms of ventilation.            Clerking of patients requiring admission to include History, Examination and Investigations.            Communication with relatives            Safe prescribing            Keeping an accurate, legible and relevant medical record.            Practical procedures: intravenous access, central access with sonosite control (central lines, vascaths), blood cultures, arterial lines.            Communicate effectively with nursing staff and colleagues.            Manage clinical priorities and time effectively.            Act in a professional manner at all times</p>

	Use evidence based guidelines and audit to benefit patient care.
<b>Where the placement is based</b>	Whipps Cross University Hospital NHS Trust. Theatres (2m) and Intensive care (2m)
<b>Clinical Supervisor(s) for the placement</b>	Dr Claire Waters
<b>Main duties of the placement</b>	The F1 doctor is responsible with other staff for the care of patients and the maintenance of the patient's medical record. They will be expected to develop 'self-directed' learning and assessment with regard to work place based assessments. They will be expected to act as a team player, show punctuality and commitment to developing new skills. They will also be expected to show respect towards patients at all times. All F1 doctors are expected to attend the structured teaching programmes provided by the department and other generic teaching programmes. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.
<b>Typical working pattern in this placement</b>	<i>Theatres</i> 0730-1700 (4 days a week) to include time for preoperative assessment 0730-1200 (1 day per week)  <i>ITU</i> 0830 – 1700 (4 days per week) 0830 – 1200 (1 day per week)  <i>The half day per week needs to be decided in advance with Dr A Patwardan, the Anaesthetic Rota Maker</i>
<b>Employer information</b>	The employer for this post is Whipps Cross University Hospital NHS Trust. The post will be based at Whipps Cross Hospital, which is a medium sized acute NHS Trust and provides an extensive range of secondary services for the growing local community of approximately 280,000. About 25% of the population is over 65. In the summer months the population increases by up to 100,000 visitors.

**It is important to note that this description is a typical example of your placement and may be subject to change.**

## Individual Placement Description For Whipps Cross University Hospital

<b>Placement</b>	F1 in Respiratory and General medicine.
<b>The department</b>	The Chest Department medical staff consist of 7 consultants, 3 SpRs, 1CT2, 1CT1, 1F2 and 6 F1s. We are currently responsible for 3 base wards totaling 51 patients as well our usual out-patient clinics and bronchoscopy service.
<b>The type of work to expect and learning opportunities</b>	All F1 Doctors will generally be ward based and expected to deliver the daily medical care of all the patients on their ward. Most of the patients are admitted with primary respiratory problems, but the population is generally elderly and they frequently have multiple comorbidities leading to complex medical management. There are multiple learning opportunities both on the job and formally, including: daily out-patient clinics, weekly clinical and X-ray meeting, weekly lung cancer MDT, weekly grand round, weekly dedicated F1 teaching including clinical skills in a state of the art skills and simulation suite.
<b>Where the placement is based</b>	Whipps Cross University Hospital
<b>Clinical Supervisor(s) for the placement</b>	Drs Quantrill, Darmalingam, Reinhardt, Raines and Mohammed.
<b>Main duties of the placement</b>	These include daily ward round of patients with more senior colleague, care of patients throughout the normal working day, organization of relevant tests and referrals, procedures when needed, liaison with the multi-professional team. The F1 will participate in the general medical on-call rota as well, admitting patients to the medical admissions unit.
<b>Typical working pattern in this placement</b>	<i>Example job timetable SJQ firm:</i> Mon: 0900 Ward round/Bronchoscopy 1300 Clinical and X-ray meeting 1500 – 1700 Ward work Tues: 0900 Ward round 1400 Out patients clinic Wed: 0900 Ward round 1300 Grand round 1400 – 1700 Ward work Thurs: 0800 Lung cancer MDT 0930 – 1300 Ward round 1300 – 1700 Ward work Fri: 0900 – 1300 Ward round 1300 – 1700 Ward work
<b>Employer information</b>	The employer for this post is Whipps Cross University Hospital NHS Trust. The post will be based at Whipps Cross Hospital, which is a medium sized acute NHS Trust and provides an extensive range of secondary services for the growing local community of approximately 280,000. About 25% of the population is over 65. In the summer months the population increases by up to 100,000 visitors.

<b>Placement</b>	<b>FY1 Palliative Medicine</b>
<p><b>The department</b></p>	<p>Situated in the grounds of Whipps Cross University Hospital, the Margaret Centre is the base for local Specialist Palliative Care services (SPCS). Services available are:</p> <ul style="list-style-type: none"> <li>• Community Macmillan Nurses covering the London Borough of Waltham Forest</li> <li>• Hospital Palliative Care Team</li> <li>• 12-bedded Inpatient Unit</li> <li>• Psychological Support Service: <ul style="list-style-type: none"> <li>○ Zig Zag children’s counselling service</li> <li>○ Young People’s’ counselling service</li> <li>○ Adult counselling service</li> </ul> </li> <li>• Complementary Therapies</li> <li>• Occupational Therapy</li> <li>• Social Work</li> <li>• Chaplaincy</li> </ul> <p>These services are offered to inpatients of Whipps Cross University Hospital NHS Trust, the community of Waltham Forest, and people who look to the Trust for their care. It is also available to their families and carers.</p> <p>Specialist palliative care is defined by the team required to deliver the service and as such, are able to deal with more complex problems. Many patients with advanced disease experience such problems which generalist services in hospitals or community settings cannot always deal with effectively.</p> <p>Complex problems are defined as those that affect multiple domains of need and are severe and intractable, involving a combination of difficulties in controlling physical and/or psychological symptoms, the presence of family distress and social and/or spiritual problems. (NICE 2004)</p>
<p><b>The type of work to expect and learning opportunities</b></p>	<p>All F1 Doctors in hospital posts will generally be ward based during the ‘normal’ working day and expected to deliver the daily medical care of all the patients on their ward. The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to:</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives</li> </ul>

	<p>and colleagues</p> <ul style="list-style-type: none"> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers.</li> </ul>
<b>Where the placement is based</b>	Whipps Cross University Hospital NHS Trust. The Margaret Centre Specialist Palliative Care Unit
<b>Clinical Supervisor(s) for the placement</b>	Dr Elisabeth Bjorndal
<b>Main duties of the placement</b>	<p>The FY1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record.</p> <p>As well as gaining experience in in-patient palliative care, it is expected that the FY1 doctor spends time with other members of the MDT, including doing home visits with members of the community palliative care team, to get an idea of the breadth of services available and who may best benefit from referral.</p> <p>It is also expected that the FY1 doctor participate in audit activity and attend departmental teaching events.</p>

## Whipps Cross University Hospital NHS Trust Individual Placement Description

<b>Placement</b>	F1 in General Medicine
<b>The department</b>	Diabetes & Endocrinology (D&E, Gillian Hanson Centre). The department comprises 3 full-time D&E consultants and an acute physician with an interest in D&E. Key supporting staff include 4 acute diabetes specialist nurses, all located in the Gillian Hanson Centre, and 2 specialist registrars (one each in D&E and renal medicine)
<b>The type of work to expect and learning opportunities</b>	<p>Acute and inpatient general medicine; specialist diabetes – acute and inpatient</p> <p>The general daytime ward work is currently divided among 2 or 3 acute wards between the 3 F1 trainees. The majority of patients are acute general medical inpatients, but a number of patients will have predominantly diabetes-related problems, especially hyperglycaemic emergencies and complex foot problems.</p> <p>We currently operate a consultant of the week (COW) rota, shared between the 4 consultants. COW is responsible additionally for complex diabetes patients around the hospital. Renal patients are the responsibility of the renal consultants, but on rotation, the F1 trainees supervise the day to day management of specialist renal patients throughout the hospital, together with the renal registrar.</p> <p>Specific learning opportunities of the post include:</p> <ul style="list-style-type: none"> <li>• Management of acute diabetes emergencies</li> <li>• Routine management of inpatient diabetes (especially insulin treatment)</li> <li>• Occasional acute endocrinology (pituitary, adrenal, thyroid, hypercalcaemia and electrolyte problems)</li> <li>• We expect F1 trainees to attend at least one diabetes outpatient clinic and spend a few hours with the diabetes specialist nurses, to develop their skills in ambulatory diabetes care</li> </ul>
<b>Where the placement is based</b>	Wards and Gillian Hanson Centre, WXUH
<b>Clinical Supervisor(s) for the</b>	Dr David Levy, Dr Abdul Lakhdar

<b>placement</b>	
<b>Main duties of the placement</b>	<p>In addition to general duties of F1:</p> <ul style="list-style-type: none"> <li>• General ward work, with particular emphasis on history taking and clinical examination, development of differential diagnoses and short- and medium-term management plans. Discharge planning with other members of the MDT.</li> <li>• Maintaining accurate, concise records, with updating of clinical problem lists.</li> <li>• Communications with other professionals and patients and carers.</li> <li>• Seeking senior support and guidance where appropriate.</li> <li>• Attendance at weekly radiology and academic meetings.</li> <li>• Maintaining an adequate rate of acquisition of required assessments.</li> <li>• Safe prescribing of diabetes medications, including insulin, and appropriate day to day dosage adjustments.</li> </ul>
<b>Typical working pattern in this placement</b>	<p>Typical working pattern in this post e.g. ward rounds, clinics, theatre sessions Daily/weekly/monthly (if applicable)</p> <p>Mon: 9-00: Ward round with COW (every day) 8-30: Radiology meeting Tues: 13-00 Grand Round Wed: 12-00 Academic meeting (journal club) Thurs: Fri:</p> <p><i>On call requirements:</i> Approximately 1 day a week 8-30 am -- 9-00 pm in A&amp;E (medical cases)</p> <p>Ward cover up to 9-00 pm about once a week</p> <p>Occasional weekend ward cover (8-30 am – 9-00 pm) and discharge round with consultant</p>
